We strongly recommend you read this entire document.

Please use the below information provided in any future corresponding with PineApp Sales and Support.

**PRODUCT: PINEAPP MAIL-SECURE VERSION**

Version: v3.75 (Dec 07, 2013) to v5.1 (Sep 05, 2015)

Mail-SeCure protects midsized to enterprise businesses' networks from both targeted and non-targeted email-related threats. Mail-SeCure is equipped with cutting-edge perimeter security engines that focus on stopping the vast majority of threats by looking at the credibility of their sources before they penetrate the customer's network. PineApp's perimeter security approach helps save a substantial amount of system resources previously wasted on unnecessary content inspections. Mail-SeCure provide system administrators with the tools to handle both email-borne threats and a variety of email-related administrative tasks.
